

Be part of something powerful!

Are you excited by innovative products such as power supply solutions or coils & linear drive solutions? We've got the perfect job for you. SFC develops, manufactures and markets highly reliable standard and semi-standard high-power platform solution for demanding requirements in laser, semi-conductor manufacturing equipment and analytical applications. Furthermore, SFC co-develops and manufactures highly complex and reliable coils & linear drives for the semi-conductor manufacturing equipment and analytical applications. SFC is operating from its R&D and manufacturing locations in Almelo, The Netherlands and Cluj-Napoca, Romania.

We are looking for a

Quality Technician Assistant

Location: Cluj Napoca, Romania

Division: Power Supply Solutions

The **Quality Technician Assistant**'s main purpose will be to support the RMA team in conducting testing and repair procedures for different power supplies.

This is a **6 month** fixed term position. In your role, you will interact with seniors to acquire knowledge of the industry and products. Your responsibilities require knowledge, passion and curiosity for electronics, and a very practical mindset.

In your role you will be:

- Preparing test equipment for testing procedures;
- Disassembling mechanical and electronic parts of power supplies and electrical cabinets;
- Troubleshooting failures of defective products under the supervision of seniors;
- Drafting reports, following check-lists and necessary documentation for the tested products;
- Performing basic maintenance on test setups and laboratory equipment;
- Proposing improvements for internal processes, testing methods, and equipment.

- Validating information from technical documentation;

What your background should look like?

- Graduated from a high school/ university with a technical profile (Electrical/ Electronics/ Mechanics);
- Knowledge of measuring and testing equipment;
- Applied knowledge of electronics;
- Ability to perform technical and non-technical tasks and processes;
- Strong attention to detail, problem-solving skills, and a proactive attitude;
- Microsoft Office (Word, Excel, Outlook) knowledge at a beginning level;
- English skills at a medium level with basic email communication skills.

For more power: Our benefits

- Apart from a competitive salary you will have access to a substantial benefits package that includes: meal tickets (30 RON), private health insurance (Signal Iduna), transport compensation, bonuses for special occasions/events, Bookster subscription, and more.
- International environment with teams from Romania and The Netherlands;
- Multidisciplinary team at a varied workplace;
- Joining an open culture, where our core values – Customer Focus and Passion, Sustainability and Responsibility, Fairness and Integrity, Quality and Innovation, Diversity– have a meaning;
- We encourage freedom/independence, ownership, personal and professional growth;
- Training opportunities based on performance management for professional development and growth;
- Flexible working hours.
